PROFESSIONAL EXPERIENCE

NTT Data

Milan

Senior Technical Services Engineer 2020 - Present

- Specialized in Collaboration infrastructures, while also supporting selected Network initiatives within the Technical Services delivery team.
- Designed and implemented customer infrastructure upgrades, deployments and technology evolution projects.
- Automated migration activities, configuration exports, log collection and operational procedures by developing Python scripts.
- Built custom web interfaces and extensions for customer-specific requirements, deployed on internal servers and Kubernetes clusters running on AWS.
- Created As-Built and Low-Level Design documentation for delivered solutions.

Technical Services Engineer

2016 - 2020

- Expanded from operational support into the delivery of customer infrastructure upgrades, deployments and evolution initiatives.
- Developed hands-on expertise in Collaboration technologies, while contributing to selected Network projects.
- Performed onsite implementation and support activities at customer locations across Italy, Europe and America.
- Produced As-Built and Low-Level Design documentation for implemented solutions.

Service Desk Engineer

2014 - 2016

- Provided first-level support for customer infrastructures covered by Managed Services contracts.
- Supported small, medium and large business environments across multiple technologies, with a primary focus on Cisco network and wireless devices and Juniper firewalls.
- Monitored infrastructure health using SolarWinds Orion and WhatsUp Gold, while tracking activities through ITSM and customer ticketing platforms such as Altiris.
- Resolved incidents in accordance with Service Level Agreements within a 24/7 shift-based environment.

PROJECTS

Manufacturing - Collaboration Consultancy

3+ years

- Provided 360° consultancy in the Collaboration area, covering design, development and implementation of new solutions.
- Worked on on-premises to cloud migrations and replacement of legacy infrastructures.
- Developed Python scripts to automate processes and custom web pages to automate user tasks.

`Cisco CUCM` `Webex Calling` `Kubernetes` `SIP` `Python Development` `Automation` `API Integration` `Web Development` `Collaboration Infrastructure` `Cloud Calling` `DevOps`

Manufacturing - Network Automation

4 months

- Developed automation scripts for automatic backup of network devices.
- Developed a custom extension for IP Fabric to perform automated compliance checks on network and firewall device configurations.

`Enterprise Networking` `LAN` `WAN` `Routing & Switching` `Firewall` `Python` `Automation` `REST API` `NetDevOps` `Network Infrastructure`

Oil & Gas - Collaboration Infrastructure Upgrade

7 months

- Worked on a major upgrade of the entire Collaboration infrastructure for an Oil & Gas company, involving 4 Cisco Unified Communications Manager clusters and more than 40,000 devices worldwide.

`Cisco CUCM` `Cisco Unity Connection` `Cisco Expressway` `Voice Gateways` `SIP` `SIP Trunking` `PSTN Integration` `Collaboration Infrastructure`

Oil & Gas - Oracle SBC

1.5 years

- Redesigned the voice infrastructure for a company operating vessels and offshore facilities worldwide.
- Designed the new solution, tested it in the lab and migrated the offshore facilities connecting to the main site through Oracle SBCs over satellite connections.

`Oracle SBC` `SIP` `SIP Trunking` `Voice Gateways` `Dial Plan Design` `PSTN Integration` `WAN`

Assurance - Oracle SBC

- Replaced Cisco Voice Gateways with centralized Oracle SBCs, connecting users and the Contact Center to the PSTN through three different providers.
- Integrated different IVRs and external voice services in America and connected services to Microsoft Teams through Direct Routing and to other external providers.

`Oracle SBC` `SIP` `SIP Trunking` `Voice Gateways` `Dial Plan Design` `PSTN Integration` `Contact Center` `Call Routing` `MS Teams Direct Routing`

Food Company - SD-WAN Implementation

3 weeks onsite

- Replaced the existing iWAN routers with new SD-WAN devices across 4 sites and 1 data center in America.
- Worked onsite in America for three weeks.

`Enterprise Networking` `WAN` `Routing & Switching` `SD-WAN` `Firewall`

UEFA Euro 2020

- Took part in the team that built the network connectivity for the stadium and kept the infrastructure operational during the tournament.
- The network supported users, photographers, accreditation devices, broadcasting companies, VAR and other services.

`Enterprise Networking` `LAN` `WAN` `Routing & Switching` `Wireless` `Firewall`

Manufacturing Company - Webex Migration

`1.5 years`

- Worked on the migration of users from Cisco Unified Communications Manager directly to Webex across 12 countries.
- Integrated three different on-premises CUCM clusters serving 5 sites with Webex, allowing users to call each other independently of where they were registered.
- Supported the migration of the Contact Center from on-premises infrastructure to Genesys Cloud.

`Cisco CUCM` `Cisco Expressway` `Webex Calling` `Webex Control Hub` `SIP` `PSTN Integration` `Genesys Cloud CX` `Contact Center` `Call Routing` `Cloud & Container Infrastructure`

Cisco Unified Communications Manager Upgrades

- Worked on several CUCM upgrade projects from version 10.5 to 14.0, including the intermediate versions.

`Cisco CUCM` `Cisco Unity Connection` `Cisco Expressway` `Voice Gateways` `SIP` `SIP Trunking`

Oracle SBC Deployments

- Worked on several Oracle SBC installation, configuration and monitoring projects using Oracle Enterprise Operations Monitor.

`Oracle SBC` `SIP` `SIP Trunking` `Dial Plan Design` `PSTN Integration` `Voice Gateways`

CERTIFICATIONS AND STUDIES

Cisco

Unified Collaboration, Automation and AI Infrastructure

- Cisco CCNA Routing and Switching (200-301)
- Cisco CCNA Security (210-260)
- Cisco CCNA Collaboration (210-060)
- Cisco Specialist - Collaboration Core (350-801)
- Cisco Devnet - Collaboration and Automation Programmability (DEVCLD 300-930)
- Webex Calling Administrator
- Webex Design and Implementation Specialist

Oracle

Oracle Collaboration Session Border Controller

- Oracle ESBC Basic Implementation Specialist
- Oracle ESBC Advanced Implementation Consultant
- Oracle ESBC Troubleshooting Specialist

Audiocodes

Audiocodes SBC and VoIP Solutions

- Audiocodes SBC in Microsoft Teams Environment Essential & Configuration

EDUCATION
